CHAPTER I

Your Belly Isn't Broken

Hey — I'm Coach Mav.

I created this guide for every woman who's ever looked in the mirror and thought she had to work harder to **deserve results**.

You don't. You just need rhythm — and I'm going to show you how to find it.

I help busy women melt away stubborn belly fat without having to live in the gym or starve themselves.

And if you're reading this, there's a good chance you've tried all the "right" things — longer workouts, cleaner meals, maybe even skipping breakfast — but still can't get the results you want.

I've seen it over and over again with my clients: strong, hardworking women who do everything right... But their bodies just won't respond the way they expect.

Here's the truth nobody tells you — your belly isn't broken.

It's not that your metabolism stopped working or that you're too busy to change. It's because your body has been out of rhythm.

When stress, poor sleep, or constant rushing take over, your body doesn't feel safe enough to let go of fat — especially around your stomach.

This guide is here to fix that.

Over the next 10-days, I'm going to show you how to bring your body back into balance with simple movement, smarter meals, and calm consistency.

You'll learn how to work with your body, not against it — and the results will follow naturally.

You don't need to do more.

You just need to do what works for you.

Let's reset your body — simply, gently, and powerfully.

CHAPTER II

Why “More Workouts” Don’t Work

Let’s clear something up right away — doing more isn’t always doing better.

I know you’ve been told that if you just push harder, sweat more, or add another workout video to your day, the belly fat will finally disappear.

But that’s the biggest lie the fitness world keeps selling.

Here’s what actually happens when you keep doing more:

- You raise your stress hormones (especially cortisol), which tells your body to hold on to fat, not burn it.
- You burn out faster, which means less consistency — and consistency is what really creates change.
- You confuse your metabolism because your body doesn’t know whether it’s in recovery mode or survival mode.

Think of your body like your phone battery — if you’re constantly running apps without giving it time to recharge, it dies faster.

The same thing happens when you overtrain or under-rest.

The real secret?

It’s not about working harder — it’s about working *smarter*.

When you move intentionally for just 10–15 minutes a day, stay hydrated, and control your stress, your body responds faster than it ever will from hours of random workouts.

That’s why inside this blueprint, every move, meal, and mindset shift has a purpose — no wasted energy, no burnout, no guilt.

Because you don’t need *more*.

You need a plan that fits your life — not one that drains it.

And that’s exactly what we’re going to build together in the next few pages.

— Coach Mav 🍌

CHAPTER III

The M3 System

This is where everything changes.

Because fat loss isn't just about moving more or eating less.

It's about learning how to make your body, mind, and habits work together.

That's what I call **The Melt It Off Method** — three pillars that create results that actually last:

◆ 1. Movement

Forget hour-long workouts.

Here, we focus on short, intentional movements that fire up your metabolism and tone your body — without draining your energy.

Just 10–15 minutes a day, right at home, is all it takes.

The goal isn't to train like an athlete — it's to move like a woman who values her time and her body.

◆ 2. Mindset

Stress is one of the biggest reasons your body holds on to belly fat.

When your mind is in constant “go” mode, your hormones stay in fight-or-flight. That means fat storage, low energy, and cravings. We flip that.

You'll learn simple mindset resets — 5-minute calm rituals, deep breathing, and gratitude breaks — that tell your body: “You're safe. You can let go.”

Because when your mind relaxes, your body finally starts releasing.

CHAPTER III CONTINUED

◆ 3. Meals

No diets. No tracking. No guilt.

Just smart, simple nutrition — what I call the **Smart Plate Formula**:

👉 **Protein + Veggies + Healthy Fats (+ Optional Carbs).**

When you eat this way, your metabolism stays active, your energy stays up, and your cravings fade naturally.

This isn't a restriction — it's rhythm.

When these three pillars work together, results come faster and feel easier.
You stop chasing perfection and start creating consistency.

And that's when your body starts to melt it off — the right way.

CHAPTER IV

Your 10-Day Belly Burn Plan

You don't need a gym.

💬 **Coach's Note:**

You're not "starting over" — you're setting a new rhythm. Don't rush this part. Resetting days makes the burn days work better.

You don't need hours.

You just need 10 focused minutes a day — and the right rhythm.

This plan is designed to fit your life — whether you're a working mom, a student, or just tired of routines that don't stick.

Every day focuses on one simple win that builds on the last.

Do these moves in your living room, on your balcony, even beside your bed — just show up for 10 minutes.

🔥 **Days 1–3: RESET — Calm the Body, Wake the Core**

Goal: Ease into movement, release tension, and activate your metabolism

Focus:

- 10 minutes of light full-body movement (stretch + walk in place + gentle core twists).
-
- Drink 2–3L of water per day.

CHAPTER IV CONTINUED

 Days 4–7: BUILD — Burn Smart, Not Hard

Goal: Turn up the heat with short, effective circuits that target belly fat and boost energy.

Focus:

- 10–12 minutes of bodyweight workouts (squats, standing abs, push-ups, lunges).
- Keep your meals balanced with the **Smart Plate Formula**.
- Prioritize sleep — aim for at least 7 hours.
-

 Coach's Note:

If it doesn't challenge you, it doesn't change you — but remember, we're not chasing exhaustion. We're chasing consistency.

 Days 8–10: BALANCE — Refine, Recover, and Reset

Goal: Strengthen your new habits, improve posture, and let your body start showing visible change.

Focus:

- 10-minute toning sessions (plank holds, slow core lifts, glute bridges).
- 15-minute walk after dinner or first thing in the morning.
- Stay consistent with hydration and calming your evenings.

 Coach's Note:

By now, you'll notice better energy, tighter clothes, and less bloating — not because you worked harder, but because you worked smarter

CHAPTER IV CONTINUED

✔ Daily Flow (Optional Tracker Layout)

Time	Habit	Description
Morning	10-Minute Movement	Short, focused session
Afternoon	Smart Plate Meal	Protein + Veg + Fat
Evening	Calm-Down Ritual	5 minutes of stillness

💡 Your Only Rule:

Never miss **two days in a row**.

Miss one? No problem — life happens.

But don't let two slip by.

Momentum builds results.

This plan isn't about perfection — it's about rhythm.

Each small win compounds into progress you can see and feel.

By Day 10, your belly won't just feel lighter — **you will**.

CHAPTER V

The Smart Plate Nutrition Guide

If you want your body to burn fat consistently, you've got to feed it right — not starve it.

Food isn't the enemy. It's the fuel that makes your metabolism fire up and stay steady.

That's why inside this blueprint, we don't do "diets."

We do balance — what I call **The Smart Plate Formula**.

The Smart Plate Formula

Every meal you eat should be built around these four elements:

Protein — The Builder

This is your body's repair crew. It keeps you full, stabilizes your hormones, and prevents cravings.

Examples: eggs, chicken, fish, Greek yogurt, beans, tofu.

Veggies — The Volume

They add fiber, vitamins, and fullness without extra calories.

Examples: spinach, carrots, cabbage, bell peppers, cucumbers, broccoli.

CHAPTER V CONTINUED

Healthy Fats — The Hormone Helper

Your body needs fat to burn fat.

Good fats balance your hormones and help control appetite.

Examples: avocado, olive oil, nuts, seeds, peanut butter (in moderation).

Optional Carbs — The Energy Source

Carbs aren't the problem — timing and portion are.

You can absolutely enjoy carbs; just earn them with movement or include them when you need energy.

Examples: rice, oats, sweet potatoes, whole-grain bread, fruit.

 How to Build a Smart Plate

Picture your plate:

- 🍗 ½ Protein & Veggies
- 🥑 ¼ Healthy Fats
- 🍚 ¼ Carbs (optional)

That's it.

No counting calories, no tracking macros — just smart, visual balance that works for real life.

 Bonus Rule: Water First

Drink a full glass of water before every meal.

It aids digestion, reduces bloating, and prevents overeating.

CHAPTER V CONTINUED

🚫 No-Guilt Foods List

You don't have to give up your favorite foods — just control the portions.

Here's your permission slip:

- Coffee with milk = fine 🍰
- Bread = okay, just 1–2 slices
- Snacks = small handful, not the whole bag
- Chocolate = yes, a few squares won't ruin your progress.

💬 Coach's Note:

Every time you eat, you're giving your body a choice — to store fat or burn it.

The Smart Plate Formula makes sure your body chooses to burn.

Eat like you respect your body — not like you're punishing it.

You don't need a strict diet. You need structure with flexibility.

CHAPTER VI

The Calm-Down Ritual

Every evening, spend just 5–10 minutes doing this simple reset.

It tells your body: “You’re safe. You can rest. You can burn.”

Step 1 — Unplug.

Turn off your phone or social media 30 minutes before bed.

No scrolling. No stress. Just quiet.

Step 2 — Breathe.

Sit or lie down. Close your eyes.
Inhale slowly for 4 seconds, hold for 2, exhale for 6.

Repeat for 2–3 minutes. Feel your body unwind.

Step 3 — Reflect.

Think of one win from your day — no matter how small.

Did you drink your water? Did you show up for your 10-minute workout? That’s a win.

This trains your brain to focus on progress instead of pressure.

Step 4 — Rest.

Sleep 7–8 hours. No shame if you fall short sometimes — just make rest your goal.

Because when your body sleeps, your hormones balance, your cravings drop, and your belly finally gets the signal to release.

CHAPTER VII

Water, Walking & Wins

The best fat-burning tools aren't found in a gym or a supplement bottle —

They're already part of your everyday life.

You just have to use them intentionally.

These three habits — **Water, Walking, and Wins** — might look simple, but together, they're the backbone of the Melt It Off Blueprint.

1. Water — The Simplest Fat Burner

Most people underestimate this one.

When you're even slightly dehydrated, your metabolism slows down, your body holds on to water weight, and your energy crashes.

Water helps your liver burn fat more efficiently and keeps your digestion smooth — both key for flattening your belly.

Your goal:

- Drink 2–3 liters per day.
- One glass right after waking up.

- One before every meal.
- One mid-afternoon (instead of reaching for snacks).

 **Coach's Tip:** Add a pinch of salt or a squeeze of lemon to one bottle daily for natural electrolytes — it keeps you hydrated longer.

2. Walking — The Forgotten Superpower

Walking is one of the most underrated fat-burning movements on the planet.

It lowers stress hormones, improves digestion, and boosts fat metabolism — without any strain or recovery time.

Your goal:

- Walk 15–30 minutes a day.
- You can break it into small chunks — 10 minutes after lunch, 10 after dinner.
- Do it outdoors when you can; sunlight helps reset your hormones, too.

CHAPTER VII CONTINUED

Coach’s Note:

If you ever feel stuck, go for a walk.

Movement clears your mind faster than motivation ever will.

3. Wins — Small Victories, Big Change

Progress isn’t just physical. It’s mental.

That’s why every day, I want you to celebrate one win — no matter how small.

Did you drink your water today? That’s a win.

Did you show up for your 10-minute workout? That’s a win.

Did you choose calm over chaos before bed? That’s a win.

Write it down. Acknowledge it.

Because the more you recognize your progress, the faster your body — and your mindset — transform.

✓ Your Daily “WWW” Checklist

Habit	Goal	Done?
Water	2-3L	☐
Walking	15-30 mins	☐
Wins	1 reflection	☐

Coach’s Final Thought:

It’s not about huge changes.

It’s about doing the simple things consistently.

Because your body doesn’t need chaos — it thrives on rhythm.

Keep your rhythm strong, and you’ll keep melting it off.

— Coach Mav 🍌

CHAPTER VIII

Real Women, Real Results

You don't need to be perfect.

You just need to be *consistent*.

Every woman who's gone through this system didn't start with extra time or unlimited energy.

They started where you are — tired, frustrated, and ready for something that actually fits their life.

Here are a few of their stories 📌

💬 **Maria – Working Mom of Two**

"I used to think I had to work out for an hour every day or it wouldn't count.

But after the first week of the Melt It Off plan, my energy came back.

I did 10-minute workouts while my kids played, and by Day 10, I could actually see my waist again.

It finally felt doable — like it was made for women like me."

💬 **Amira – Full-Time Nurse**

"I was always too tired after work to exercise. But this plan felt different — it respected my energy.

💬 **Tina – Student & Part-Time Worker**

"I didn't think 10 minutes could do much, but I was wrong.

The Smart Plate meals and short daily workouts made me feel strong without stressing me out.

I started this for the belly fat — but what I really found was confidence."

These stories aren't about perfection — they're about *progress*.

Every woman who committed to showing up for herself saw change — not because she did more, but because she finally did what worked.

And you can, too.

Because the **Melt It Off Blueprint** isn't just a plan.

It's a system that fits *you*.

— **Coach Mav** 📌

CHAPTER IX

The 10-Day Habit Tracker

Success isn't about big leaps — it's about showing up a little bit every day.

That's how you create real change.

This **10-Day Habit Tracker** helps you stay accountable and see your consistency in action.

Every small box you tick is a promise you kept to yourself — and that's what builds lasting results.

Print this page out, save it on your phone, or use it as a daily checklist.

Whatever keeps you showing up — that's what works.

How It Works

Each day, check off the habits you complete.

If you miss one, don't quit — just restart the next day.

Progress beats perfection every single time.

YOUR 10-DAY MELT-IT-OFF TRACKER

💬 COACH'S NOTE:

YOU DON'T HAVE TO BE PERFECT — YOU JUST HAVE TO BE PRESENT.

EACH BOX YOU CHECK OFF IS ONE STEP CLOSER TO YOUR GOAL.

STAY CONSISTENT, TRUST THE PROCESS, AND LET YOUR RESULTS SPEAK FOR THEMSELVES

— COACH MAV 🍌

CHAPTER X

The After-Plan Keep the Burn Going

You made it. 🔥

10-days of showing up, moving smarter, eating better, and finding your rhythm again.

Now it's time to take that momentum and turn it into a lifestyle — one that feels good, fits your life, and lasts.

This isn't the end. It's the start of your **new normal**.

👉 1. Keep What Works

Look back at your 10-day tracker — notice what made you feel your best.

Was it the morning movement? The evening calm? The Smart Plate meals? Whatever worked, keep it.

Consistency with small habits beats starting over with big ones every time.

💬 Coach's Tip:

Pick 3 habits that made the biggest difference and commit to keeping them for the next 30 days.

👤 2. Stick to the Rhythm

You don't need a new routine — just a sustainable one.

Follow this simple structure week to week:

- **3–4 short workouts** (10–20 minutes each)
- **Daily movement** (walks, stretching, stairs — it all counts)
- **1 calm night ritual** you actually enjoy
- **1 treat meal** guilt-free

Progress comes from staying in rhythm, not starting over.

🥗 3. Eat Like It's Forever

Keep building Smart Plates — not diets.

Remember, the goal isn't to be perfect. It's to be aware.

You can still enjoy your favorite foods; just stay balanced.

Eat to fuel your energy, not your emotions.

CHAPTER X CONTINUED

 4. Check In Weekly

Every week, ask yourself:

- Did I move my body at least 3 times?
- Did I stay hydrated most days?
- Did I manage my stress better than last week?

If you said “yes” to even two of those, you’re still winning.

 5. Be Kind to Yourself

There will be days you miss a workout, overeat, or feel off track — that’s normal.

Don’t let one rough day undo all your progress.

The Melt It Off mindset is simple:

Miss one day, not two.

Every time you get back up, you win again

 Coach’s Final Words:

You don’t need perfection to transform your body — you just need patience and rhythm.

You’ve already proven you can do this.

Now it’s time to keep going, one smart step at a time.

Your journey doesn’t end here — it just gets better from here.

Keep showing up. Keep melting it off.

— **Coach Mav** 💪

CONCLUSION

Thank You & Next Steps

You made it. 🔥

Ten days of showing up, moving smarter, and taking charge of your body — not with restriction, but with rhythm.

That's something to be proud of.

You didn't just follow a plan — you built momentum.

You proved to yourself that you can make time for your health, no matter how busy life gets.

And this is only the beginning.

👉 Where You Go From Here

Now that you've mastered the 10-Day Belly Burn Blueprint, your next step is simple:

Keep your rhythm alive.

Stick to your Smart Plates.

Keep showing up for 10 minutes a day. And protect your calm like it's part of your workout — because it is.

Small wins, done consistently, are what change your body long-term.

The results you're starting to feel? That's your new baseline.

From here, we build on it — stronger, steadier, smarter.

★ Stay Connected

This is where I'd love to stay in your corner.

 Final Words from Coach Mav

Remember — you don't need perfection.

You just need consistency.

You've already proven that you can commit to yourself, even on the busiest days.

That's the real win.

Keep your rhythm strong.

Keep your mindset calm.

And keep melting it off — your way.

With respect & energy,

Coach Mav 💪

Helping busy women burn fat, find balance, and feel confident — without the gym
